Sustainable Edgewater

February 2, 2017

by: Carol

Join us at the Edgewater Library to learn and discuss solutions for energy, electricity, transportation, society and economy with a sense that sustainability is possible. Seminars address various topics, including an "Intro to Energy" class from Colorado School of Mines Research Assistant Professor, Xerxes Steirer. Learn about LEED

buildings, EV charging, solar farms, and more by participating in this informative and participatory series.

Suitable for: Adults
