IMAGINE A DAY WITHOUT OIL
Did you know that a majority of products that you use every day are made from petroleum? From your smartphone to your glasses to your ink pen. Oil and gas is an industry with a long history of growth and advancement in California.

Would you like to learn more about oil field operations and the impact it has to thrive and produce products that we need and use every day?

SUMMER INTERNSHIP PROGRAM
California Resources Corporation (CRC) is looking for students pursuing a Bachelors or Master’s degree in Petroleum, Chemical, Mechanical, or any-related engineering field to participate in our 2018 Summer Internship Program.

An internship at CRC will provide valuable experience in the petroleum and gas industry. As an intern, you’ll be paired with a manager and mentor, work on business-critical projects that matter, and have fun along the way. If you'd like to get a head start on your career, explore opportunities at our main locations - Bakersfield and Long Beach, California.

EXPAND YOUR KNOWLEDGE
WHO YOU ARE:
Currently pursuing a Bachelors or Master's degree in engineering; basic understanding of oil recovery; strong desire to learn and contribute.

PROJECTS THAT MATTER:
Interns get to work on projects that are tangible and valuable to CRC. These projects have the potential to get implemented along the way and employees want to hear about it! Interns will give a presentation and show the impact they made at the end of the summer internship.

EXAMPLES OF PREVIOUS INTERN PROJECTS:
- **Reservoir Engineering Intern**: Waterflooding Tight Sands through Fractured Horizontal Wells
- **Production Engineering Intern**: Mount Poso Waterflood Surveillance and Optimization

TIME & PAY
Interns will participate in a 12-week paid-internship. The program will begin this summer and will run from May through August. Work schedules average 40 hours per week with every-other Friday off.

APPLY NOW

CRC is an Equal Opportunity Employer M/F/D/V
ENERGY FOR CALIFORNIA BY CALIFORNIANS

CRC is the largest oil and natural gas producer in California on a gross-operated basis.

VISION
To be the premier company providing Californians with long-term ample, affordable and reliable energy exclusively from California resources.

MISSION
To maximize stockholder returns by safely and responsibly developing high-growth, high-return assets exclusively in California, while benefiting our workforce, communities and the state.

VALUES

CHARACTER

RESPONSIBILITY

COMMITMENT

WE ARE PROUD TO:

PROVIDE ENERGY
Provide affordable, secure and reliable energy for California.

CREATE JOBS
Provide diverse jobs that for many are the path to the middle class.

CARE FOR THE EARTH
Adhere to the state’s stringent safety & environmental standards.

WHERE WE OPERATE
CRC is the largest private net mineral acreage holder in California. We have operations at the Elk Hills Field in Kern County, the Wilmington Field in Long Beach and fields in Los Angeles, San Joaquin, Ventura and Sacramento Basins.

2 Million+ NET ACRES
Equal to the combined areas of California’s 75 largest cities.

OUR COMMITMENTS
We’re committed to creating an environment that enables employees to build the skills they need to grow in their job and meet their career goals.

SAFETY
20+ state and federal agencies oversee all aspects of in-state exploration and development of properties, production, transportation and the sale of oil and natural gas.

COMMUNITY
CRC serves as an active and supportive community partner through impactful donations and volunteerism.

CONSERVATION & ENVIRONMENT
CRC proudly shares and endorses the state’s commitment to conserve our natural resources and protect our environment. We work closely with the following organizations and many others:
